Summary

After a decade in finance, I've discovered my passion for building products and am looking forward to my next adventure in Software Engineering.

Experience

Software Engineer

Emporia | www.emporia.app

Dec 2020 - Present

- Platform designed to make curating content more accessible
- Led in developing key features such as notifications, digital wallet, comment mentions and overall front end implementation
- Assisting with onboarding of content producers/user interviews
- React-Native, React, AWS (DynamoDB, Amplify)

Vice President
